Messrs. R. K. Baptist and A. V. Soares were ordained at the Central Union Church Sunday evening.

Dr. William Hammond delivered an earnest and interesting sermon at the Central Union Church Sunday. Mr. D. L. Huntsman has severed

his connection with the Ka Leo, so is no longer the "literary artist" of that paper. The Maui Races for the 4th are

attracting a great deal of attention. A great many from here are thinking of attending. The warm wave through which we are passing has shown eighty-eight

degrees less under the verandahs. Hunters are impatiently looking forward to July 1st, the opening of the dove shooting season. Some of our local hunters are getting their

degs. in the house, and one or two

guns out already. A dish of fine large mangoes are displayed in the window of the Hawaiian News Company, raised in the Government Nursery by Mr. Williams, from foreign seed.

The photographs, made by J. J. Williams, of the Athletic boys, attract much attention. And well they may for both the positions of the athletes and finish of the pictures are splendid.

Her Majesty Queen Liliuokalani will not visit Kauai till after the Fourth of July. She honored the Hawaiian Jockey Association Thursday with her presence at the races for a short time.

Messrs. W. J. Starr and W. D. McBryde, respectively manager and | Louisa Stahn, Los Angeles. treasurer of the Northwest Investment Trust and Stock Company of the state of Washington, are here to do business for that company. See their notice elsewhere.

The sport who gambled with loaded "dice at the races Thursday, thereby roping in some of the innocents, ran against a snag, or rather the fist of a man who "caught on" to his little game; he was compelled to refund the coin, too.

Captain Freeman, of the steamer W. G. Hall, was found guilty by the Police Court of Punaluu, Hawaii, for having unloaded some opium on Hawaii on the last trip. He was fined \$200 and costs. The case was appealed to the Circuit Court of Kan,

Friday afternoon a committee, nended by Mrs. A. A. Haalelea, from the Kawaiahao church, was granted an interview by the Queen. They called to inform Her Majesty that the new pew in that church was ready to be occupied. As stated of the Rev. Mr. Parker, who was preachsome time ago, the pew was made by | ing in one of the country districts, Mr. Mr. Green from koa wood.

Several years ago a vessel from Honolulu brought to Port Gamble a small lot of goldfish, and not being able to dispose of them dumped them into a pond near Port Gamble. The fish continued to thrive and multiply, and now the Indians there islands, carrying off many of the oldest have a monopoly of the goldfish and most active of our Hawaiians. Through the efforts of Deputy Sheriff Swain and Dr. Thompson, both of Laupahoehoe, North Hilo District, Hawaii, a small leper settlement was unearthed near Ookala last week. Five lepers have been found, some being cases of long standing. Although the lepers lived in the Hamakua district, the urgency of the matter was such that this did not prevent the officials named from taking steps to remove the afflicted

Purser Geo. McLane of the Zealandia has our thanks for news

On Monday, June 29th, Mr. Jas. F. Morgan will hold an extensive Ten tourists took passage in the steamer W. G. Hall Friday for the

Volcano, via Punaluu. Miss Susanne Patch will resume

the teaching of vocal and instrumental music after September 1st. If there is going to be an enter-

tainment of any kind for the Fourth Alfred S. Hartwell, attorney, has of July, preparations had better be commenced soon. Hon. W. Jas. Smith, Secretary of

the Board of Education, has a notice of the public school examinations of Honolulu and Oahu.

By the W. G. Hall on Friday the following Japanese immigrants were shipped to the Hutchinson plantation: 35 men and 12 women. The Japanese steamship Yama-

shiro Maru, Captain Young, is now

due with over one thousand immi-

The latest quotations of sugar in New York June 1st, were \$3.41 for Cuban centrifugals; and \$4.121 for dry centrifugals. In San Francisco, dry centrifugals are \$5.50.

The steamer Likelike, on her last trip from Hawaii, took the largest number of sacks of sugar from and resided for the most of his boyhood by the score: one day-4000 sacks were taken.

The question " What are we going to have on July 4th " has been heard quite frequently the past few days. If anything is going to be done, active steps should be taken at once.

Her Majesty the Queen attended service on Sunday at Kawaiahao Church, and occupied the royal pew for the first time since it was specially fitted up for her. She was attended by several of the ladies of the court. In the absence Henry Waterhouse made an address, in which he referred very touchingly to the numerous deaths among the natives from the prevailing influenza epidemic, instancing several of the best and most prominent of them. ## HILO JOTTINGS AND EX-PRESSIONS.

(From the Hilo Record.)

We would call the attention of the Minister of the Interior to the fact that it is now only ten months to the end of the biennial period, and that absolutely nothing has been done as yet to getting at the work of making the Volcano road.

That there is money in the treasury we all know. Why is it that the work has not been commenced? It will take at least one month to get together workmen and get ready to start work. That will leave nine months to work it. We all know that the road cannot be finished in that time. But from present appearances work will not be really commenced before July or August. If there were not money in the treasury it might be different but with half a million dollars lying idle there, there is no earthly reason why the work should not have been commenced three months ago. Mr. Bruner has finished his survey long ago, and we can see no reason why at least one mile of new road has not been built. This "mahope" business is running the country. Cannot the progressive members of the Cabinet stir up our Minister to do something immediately? We believe that labor enough can be had here at fair wages to start the work. The people of Hilo feel deeply interested in this work, and are alive to the importance of its being immediately taken hold of.

The supposed murder of a Chinaman in Puna turns out to be not true. The Chinaman was out of his head and some three or four days after turned up crazy,

The weather has been extremely warm for the past weeks. Light southerly weather and but little rain. Just a breeder of sickness.

The Lurline, Matson, left on Sunday May 21st for San Francisco with a full freight. She arrived on the 18th discharged, loaded and was off in twelve days. This for Hilo is quick despatch. Mrs. Baker and grand-daughter were passengers by her. The Kinau gave her a tow out of port.

Professor H. R. Hitchcock, who died in Hilo, June 6, was the second son of Hakalau ever taken from there in days on Molokai. He was one of the first of the old Punahou scholars, and after leaving that institution in 1859 took charge of the Hawaiian Union School in Hilo, which position he kept until offered the office of School Inspector-General in 1874. This position he held for years, giving general satisfaction to the Ha-waiians by his efficiency and care of the schools in this kingdom. In 1877 he was offered the presidency of the Lahaitaken from the Zealandia Tuesday, a bag of papers for the Hawaiian ten years. His last days were spent in News Co. slipped into the water, but for Hawaiian children, which he finished a few months since. The funeral service of Professor Hitchcock was held at the Haile Church Rev. Desha officiating, on Sunday, June 7th. His remains were interred by the side of his mother in the Halai cemetery. By advices from Kau, we learn that Deputy Sheriff Searle nailed an opium transaction, between the captain of the Hall and a Chinaman, of some forty tins. Is this a part of the opium brought

by that sealing schooner? The Volcano keeps up its late fires, but the old pit of Halemaumau fills up slowly, and it is quite a depth below the edge of the rim. The lumber for the new Volcano House is gradually arriving on the ground, and work on the buildings will ere long be commenced. We hear that the hauling of this lumber over the Lee road has knocked the stuffing out of it. Why don't the people on Kau petition the Minister of the Interior to open the road to the Volcano, so that that matter can be settled by the next Legis-

## Death of Mrs. Hatfield.

Mrs. Elizabeth Hatfield, wife of Captain J. W. Hatfield, died of pneumonia at the residence of her brother, Mr. D. P. Kellet, on Monday evening, June 8, aged 44 years. The deceased was a member of St. Andrew's Cathedral and Japanese Curios.

The Japanese bronze vases, etc., brought by Mr. A. Barnes from Japan, are attracting a great deal of attention. The ladies' silk handkerchiefs that he has for sale are going rapidly. In order to sell out all of the immense number, over 700 dozen, he has reduced prices about twenty per cent. Nothing like this has ever been offered before in Honolulu.

## ON THE DIAMOND.

But It Was a Cold Day For the Kamehamehas.

The largest crowd of the season gathred at the Association grounds Saturday afternoon to see the game between the Honolulus and Kamehamehas. The ladies were out in full force and cheered their favorites on to victory. The day was all that could be desired, and every one that was inside the inclosure got value received for their money. While there were many errors on each side there was plenty of snap and go in the play, and neither side was ever far enough ahead to make the audience lose

interest in the contest. Willie Lucas pitched a magnificent game, striking out eight of the students. and only allowing them five scattering hits, two of which were of the scratch order. Ernest Wodehouse demonstrated that he is a first class third base man, accepting his five chances without an error. Captain Harry played his usual careful game, in fact all the Honolulus played good ball, excepting Chan. Wilder, who had an off-day, making four of the six errors charged to his side. However, Chan. does not often make mistakes, and has probably deposited all he has in stock for the season in this one game.

For the Kamehamehas Pahau at second took everything that came his way in fine style, having three put outs and seven assists to his credit, besides getting two fine hits in his four chances at bat. Crowell in center played his usual fine game, making two good running catches. Makaimoku was away off in his throwing, having no less than four wild throws to first, but he redeemed himself in the fourth, when he caught a hot liner from Desha's bat, and returned it to second in time to cut off Carter completing a fine double play. Wahine-makai was unfortunate enough to badly wrench his leg while running to first in the seventh. While the accident is a very painful one, still we are glad to learn that it is not a serious injury, and the Rev. H. R. Hitchcock. ## CAUGHT ON THE FLY.

Telephonic — Capt. Harry: "Say, Capt. Robert, if you have any more like that third baseman, you had better hurry up and sign 'em, because they'll be needed before the finish."

The Palama "left wing" aggregation was out in full force, aided by the band boys, but their enthusiasm was weak. The "right wing" contingent pulled very little for the Hons. It wasn't needed.

"Never touched him," yelled the crowd, as Capt. Harry came sliding half way in from third. The umpire says 'out," so that settles it.

E. S. T., Waikiki- No; we are not aware of the fact that Carter has his bats made at the foundry; will try and find

out and inform you later. W. Lucas is an all-round ball player, and the main-stay of the heavy hitters. A lady in the grand stand forgot herself in the excitement of the game, and

gave decisions that would do any Hono-lulu umpire credit. They didn't count, however. Albert Lucas played with the H. H. H. H. s on Saturday—in the Grand Stand. Wahinemaiki's successor is a " little

daisy," and will make his mark on the diamond before long.

## The Libel Case.

The attendance Monday afternoon at the preliminary examination at the Police Court of Hon. J. E. Bush and Mr. D. L. Huntsman on two charges of libel was quite large. Mr. Bush's case was disposed of first; he waived all defense and was committed for trial before the Supreme Court. In the course of his examination, he stated that he in-spired the articles in question and Mr. Huntsman put them into shape. The latter was also committed for trial before the Supreme Court. The bonds in both cases were the same as before.

### Wasn't Frightened. As the Superintendent of the Tram-

way Company was waiting for a car Friday afternoon he sat upon the Palace wall near the gateway. The guard drew his bayonet to pursuade him guard drew his bayonet to pursuade him to take a walk; not being pursuaded, another guard was called, both pointing their bayonets at him. He was reported to be undaunted by even this, and that the guards then left him in disgust at a man who wasn't afraid of their arms. Supreme Court - At Chambers.
